

The Department of Architecture is part of the Faculty of Engineering and Architecture and its program is officially accredited by the Pakistan Council for Architects and Town Planners. Established in 2009, the department has expanded to train a student body of more than 150 undergraduate students. Its core professional focus melds science and arts to design built and unbuilt structures aimed at expanding the global art of living, with a curriculum that works to resolve contemporary and upcoming worldwide structural and spatial design adjustments, preserving a distinct lens on the cultural context of Balochistan. The vision is to be among the best architecture schools, where students and teachers find their identity as professional architects of all times and situations, exploring, discovering, and building culture artistically with creativity and difference. Its mission is committed to training students through in-depth study and research in social, cultural, political, and historic contexts, providing a comprehensive architectural design solution for the region in general and for Balochistan in particular with an emphasis on its spatial needs.

For the Bachelor of Architecture program, the admission requirements include an academic background of F.Sc Pre-engineering or A-levels from any recognized board or an equivalent certification with at least 50% marks, or a Diploma in the same field securing at least 60% marks. Admissions are determined via a combined evaluation of an NTS test, a departmental aptitude test which examines creative thinking, writing skills, and freehand drawing performance, and a subsequent interview. The degree requirements involve 173 total credit hours across 54 total courses with a minimum academic standing of a CGPA of 2.0 or higher. The core graduate capabilities involve designing systems under economic, environmental, social, ethical, safety, and sustainability constraints, working on multidisciplinary teams, communicating architectural solutions globally, and applying math, science, and spatial art tools.

The curriculum plan details the program schema by semester, noting that credit hour listings follow the layout of theory plus lab or total values as given in the raw schedule. In the first semester, students take Basic Design-I and History of Architecture-I with no prerequisites for 1 plus 5 and 2 credit hours respectively, Pakistan Studies and Visual Communication Skills-I with no prerequisites for 2 and 1 plus 1 credit hours respectively, English-I Functional English and Math for Architects with no prerequisites for 2 credit hours each, and Islamic Studies with no prerequisites for 2 credit hours. The second semester includes Basic Design-II with a prerequisite of ARCH-101 and History of Architecture-II with no prerequisite for 1 plus 5 and 2 credit hours respectively, Visual Communication Skills-II with no prerequisite and English-II Verbal with a prerequisite of HUM-164 for 1 plus 1 and 2 credit hours respectively, Materials and Construction-I and Physical Environmental Studies-I with no prerequisites for 1 plus 1 and 2 credit hours respectively, and Surveying and Leveling with no prerequisite for 1 plus 1 credit hours. In the third semester, the courses are Architectural Design-I with a prerequisite of ARCH-201 and Materials and Construction-II with no prerequisite for 1 plus 7 and 1 plus 1 credit hours respectively, Physical and Environmental Studies-II with a prerequisite of ARCH-103 and Structure for Architects-I with no prerequisite for 2 credit hours each, and History of Architecture-III and Visual Communication Skills-III with no prerequisites for 2 and 1 plus 1 credit hours respectively.

The fourth semester consists of Architectural Design-II with a prerequisite of ARCH-201 and Materials and Construction-III with no prerequisite for 1 plus 7 and 1 plus 1 credit hours respectively, Structure for Architects-II with a prerequisite of CIVILE-151 and Building Services and Systems-I with no prerequisite for 2 and 1 plus 1 credit hours respectively, and History of Architecture-IV and Computer Applications-I with no prerequisites for 2 credit

hours each. In the fifth semester, students take Architectural Design-III with a prerequisite of ARCH-266 and Materials and Construction-IV with no prerequisite for 1 plus 7 and 1 plus 1 credit hours respectively, Building Services and Systems-II and Theory of Architecture-I with no prerequisites for 1 plus 1 and 2 credit hours respectively, and Computer Applications-II and Interior Design with no prerequisites for 2 credit hours each. The sixth semester covers Architectural Design-IV with a prerequisite of ARCH-363 and Building Services and Systems-III with no prerequisite for 1 plus 7 and 1 plus 1 credit hours respectively, Theory of Architecture-II and Architecture in Pakistan with no prerequisites for 2 credit hours each, and Landscape Architecture and Heritage Conservation with no prerequisites for 1 plus 1 credit hours each.

The seventh semester includes Architectural Design-V with a prerequisite of ARCH-365 and Urban Planning and Design-I with no prerequisite for 1 plus 7 and 2 credit hours respectively, along with English-III Technical Report Writing and Working Drawings-I with no prerequisites for 3 and 2 credit hours respectively. The eighth semester involves GIS for Architects with no prerequisite for 1 plus 2 credit hours, Architectural Design-VI with a prerequisite of ARCH-366 and Architectural Research Methods with no prerequisite for 2 plus 8 and 2 credit hours respectively, Working Drawings and Details-II and Urban Planning and Design-II with no prerequisites for 2 credit hours each, and Economics with no prerequisite for 2 credit hours. In the ninth semester, courses are Thesis Design-I with a prerequisite of ARCH-461 and Professional Practice with no prerequisite for 1 plus 7 and 2 credit hours respectively, along with Quantity Surveying and Estimation and Project Management with no prerequisites for 3 and 2 credit hours respectively. Finally, the tenth semester requires Thesis Design-II with a prerequisite of ARCH-504 and Advanced Presentation Techniques with no prerequisite for 12 and 2 credit hours respectively.
